Open Faculty Position Announcement
Assistant, associate, or full professor position (Job Code 9403) - Full-time, annually renewable (Job ID# 344318)

Specific duties and responsibilities are assigned by the Program Director or negotiated at the annual review and documented in the annual faculty development plan.

Duties and Responsibilities

Curriculum and Instruction (50- 70%)

Teaching
- Teach a minimum (or the equivalent) of 12 credits of academic courses including the Body Structures and Functions course series across a three-semester annual curriculum unless otherwise negotiated in the annual Faculty Development Plan.
- Design and create innovative courses or learning materials.
- Prepare educational experiences to structure optimal learning of Occupational Therapy Doctoral students including course objectives, course materials, and online and face-to-face educational experiences.
- Use effective and innovative technology enhanced learning strategies.
- Participate in curriculum development and evaluation.

Advising
- As assigned, advise pre-Occupational Therapy students to a successful career outcome.
- As assigned, advise Occupational Therapy students in their academic progress within the curriculum.
- As assigned, mentor student groups through a Capstone data-driven project.

Mentoring
- Share expertise in the scholarship of teaching and learning with faculty across the University.
- Interact with diverse students and others within the University, Academic Health Sciences, the Center for Allied Health Programs, and community, resulting in positive outcomes from that interaction.
- Model ethical and competent professional behaviors.

Scholarship (10- 25%)
- Create and maintain an active line of research program in an area of expertise.
- Present research findings at appropriate local, regional, or national professional meetings.
- Publish refereed journal articles on research findings and/or teaching innovations.
- Seek financial support for own scholarly topics and those of students.
- Serve as primary or investigator or co-investigator in funded grants and scholarly contracts.

Service (10- 30%)
- As negotiated, practice as an expert clinician in unit-sponsored clinical practice plan.
- As negotiated, contribute professional/academic expertise to the university or community.
- Serve as a member of committees or in leadership positions within the Center or University.
- As assigned, provide effective leadership in at least one program standing committee (e.g., admissions, continuing education, alumni relations, student academic progress).
- As negotiated, participate in Program continuing education efforts.
Professional Development
• Develop a plan to continue competency in the breadth and depth of knowledge in the OT profession.
• Develop a plan to continue proficiency in teaching through investigation, formal education, continuing education, and self-investigation.

Required/ Essential Credentials and Experience
• Earned doctorate
• Teaching or research experience in anatomy, physiology, and neuroscience.

Preferred/ Desired Credentials and Experience
• Member of a licensed health profession
• Teaching or research experience in kinesiology
• Documented history of successful teaching

Reporting Structure
• Reports directly to the Program Director

About the Department
The University of Minnesota’s Occupational Therapy (OT) program is the only public doctoral-level OT program in Minnesota and one of the oldest OT programs in the United States. Our graduates use a science-driven, evidence-based approach to help children and adults who have physical, cognitive, emotional, social or environmental impairments participate in activities that they value, achieve life goals, and live as meaningfully as possible.
