Open Faculty Position Announcement
Tenure or tenure track faculty member: Assistant, Associate, or Full Professor position (Job Code 9403) (Job ID# 345706)

The University of Minnesota Medical Laboratory Sciences Program is seeking a full-time tenure or tenure track faculty member for the Twin Cities campus in their NAACLS accredited Medical Laboratory Sciences program. The position requires instruction and guidance of students, participation in curriculum and program development, engagement in quality improvement and advocacy, as well as curricular, recruitment, scholarship, and service activities in execution of the MLS Program mission.

Duties and Responsibilities
Specific duties and responsibilities are assigned by the Program Director or negotiated at the annual review and documented in the annual faculty development plan.

Teaching Curriculum and Instruction
- Develop and teach professional level medical laboratory science students using active-learning approach to course content delivery
- Contribute to curriculum development and evaluation
- Academically advise students and provide student support as needed
- Teach professional online and in-person professional development offerings

Scholarship
- Contribute to the program’s scholarship agenda.
- Undertake and carry-out publishable scholarship in medical laboratory science or related fields

Service
- Serve the Program, University, region and nation in ways that align with Program, institution, and profession initiatives.
- Engage in professional society activities that promote the program and the profession

Appointment and Salary
Rank and Salary: commensurate with experience.

Professional Development: Develop and maintain ongoing competency in the breadth and depth of knowledge in the profession. Maintain current certification through continuing education, continue personal growth within the profession, keep current with the field, and broaden knowledge and expertise.

Required/ Essential Credentials and Experience
- MLS or MT certification
- Earned doctorate in MLS or a related field of study
- A minimum of three years’ work experience in MLS practice
- Experience teaching using technology-enhanced learning pedagogy
- Agreement to abide by University and ASCLS Code of Ethics
- Demonstrated commitment to cultural diversity, equity, and inclusion

Preferred Qualifications
- Evidence of scholarly activity including peer-reviewed publications and funded grants relevant to the Program’s research priorities
- Evidence of successful teaching of medical laboratory practitioners or students
- Evidence of online teaching skill and course development using technology-enhanced learning pedagogy
- Evidence of strongly-developed developed team skills
- Expertise in Immunology/Transfusion Medicine and/or Hemostasis

Organizational Chart
- Reports directly to the MLS Program Director
